

FOR IMMEDIATE RELEASE

Attleboro Community Electricity Aggregation has been Renewed through November 2025

Attleboro, MA – (October 20, 2023): Attleboro Community Electricity Aggregation is announcing the renewal of the program through the term December 2023 – November 2025. **Most participants do not need to take any action to remain in the program and receive the new pricing for the product in which they are currently enrolled. Read on for more information.**

“The City of Attleboro is taking seriously the impact of rising energy costs on residents and businesses going into the winter months, particularly the anticipated sizable increases in the price of electricity. To help mitigate the impact of an anticipated change in the National Grid electric supply rate, the City is encouraging public participation in its Community Electricity Aggregation Program,” said Mayor Cathleen DeSimone.

Most participants in Attleboro’s program use “Attleboro Standard”, which offers the same renewable energy content as National Grid Basic Service. “Attleboro Standard” participants will automatically receive the new program pricing on their December meter read. Due to requirements from the Department of Public Utilities, participants in the 50% and 100% renewable product must affirmatively re-enroll in a product of their choosing to remain in the program. To re-enroll or change your product selection, call Constellation at (833) 461-0813 or complete an enrollment form on the program site: MassCEA.com/Attleboro.

The table below shows the new prices for our program compared to National Grid.

	National Grid Basic Service (If you leave the program)	Attleboro Standard (Community Default)	Attleboro Plus
Price	18.213 ¢/kWh - Residential 17.262 ¢/kWh - Small Business 21.450 ¢/kWh - Large Business*	15.784 ¢/kWh	17.372 ¢/kWh
Voluntary Renewable Energy	Meets the state required minimum	Meets the state required minimum	Adds voluntary renewable energy (MA Class I RECs) to total 100%
Duration	November 1 – July 31, 2023 *Large Business: November 1, 2023 – January 31, 2024	December 2023 – November 2025	December 2023 – November 2025

The Program cannot guarantee savings beyond the current term of National Grid Basic Service, as stated in the table above, because future National Grid Basic Service rates are unknown.

Good Energy, the consultant to the program, will hold virtual public information sessions to answer any questions and provide more information on the renewal of Attleboro Community Electricity Aggregation. These sessions will be held on:

- Thursday, October 26 at 6:00 PM. Link: <https://meet.google.com/ucj-dxgg-zzm>
- Thursday, November 9 at 2:00 PM. Link: <https://meet.google.com/wat-qttj-xyx>

The voluntary renewable energy content in the Program's optional product comes from projects that qualify as MA Class I renewables and makes a sizable impact on the City's carbon footprint. Since Attleboro Community Electricity Aggregation's launch in 2016, participants have cumulatively purchased 390 MWh of renewable energy. This equates to avoiding over 300,790 pounds of carbon dioxide emissions cumulatively.

Over 14,400 accounts participate in the program, a vast majority of the City's residential, commercial, and industrial electricity users. Participants have collectively saved more than \$21,500,000 since the program's launch in 2016 (please note, future savings cannot be guaranteed).

This is a City-operated program open to all Attleboro residents and businesses. To join, complete the enrollment form on the program website: MassCEA.com/Attleboro or call the program's supplier, Constellation, at (833) 461-0813. Participants may leave the program at any time without fees or penalties. Visit the program website to review all program options available and to submit any questions via the program contact form: MassCEA.com/Attleboro.
