NOTICE OF PUBLIC HEARING AND REQUEST FOR COMMENTS

D.P.U. 22-94

August 1, 2022

Petition of Liberty Utilities (New England Natural Gas Company) Corp. d/b/a Liberty for approval of a mid-term modification of its 2022-2024 Three-Year Energy Efficiency Plan.

On July 25, 2022, Liberty Utilities (New England Natural Gas Company) Corp. d/b/a Liberty (“Company”) filed a petition with the Department of Public Utilities (“Department”) seeking a mid-term modification of its 2022-2024 Three-Year Energy Efficiency Plan (“Three-Year Plan”) approved by the Department in 2022-2024 Three-Year Energy Efficiency Plans, D.P.U. 21-120 through D.P.U. 21-129 (January 31, 2022). The Department docketed this matter as D.P.U. 22-94. The Company requests Department approval of its mid-term modification request by August 30, 2022.

As part of its Three-Year Plan, the Company offers a Commercial and Industrial (“C&I”) Existing Building Retrofit Core Initiative, which provides incentives to C&I customers for pursuing energy efficiency measures and strategies to optimize their operations, including upgrading existing systems and equipment to more efficient options. The Company states that in order to meet increased production demand, an industrial customer (“Industrial Customer”) in its service territory has decided to undertake a significant expansion project at its facility in Fall River, Massachusetts. The Company maintains that it is necessary to provide a participant incentive to this Industrial Customer to install a new, more efficient, industrial heat-pump system as part of its facility expansion project. The Company proposes a mid-term modification of its Three-Year Plan in order to increase its C&I sector budget by \$2,135,250 (or 60 percent) to provide the participant incentive. The Company asserts that the new heat-pump technology to be installed by the Industrial Customer will result in reductions in both natural gas usage and greenhouse gas emissions.

The Company proposes to recover the costs associated with the mid-term modification from its C&I customers over two years, rather than one year, to minimize the financial impacts of the project. If the Department approves the mid-term modification and associated C&I budget increase as proposed, the bill impacts for C&I customers will vary. C&I customers should contact the Company for specific bill impact information. Residential customers, including low-income residential customers, will not experience any bill changes related to the Company’s proposal.

Due to certain ongoing safety measures and precautions relating to in-person events as a result of the COVID-19 pandemic, the Department will conduct a virtual public
